✏ About

My name is Forrest, Forrest Gump. My momma always said miracles happen every day I figure the same rule applies to gettin' a job! So I'm lookin' to become the president of the US of A.

I may not be the smartest man as I spent most o' my time in college playin' football, but I recon it's the same idea as running' for presidency:

just hope for the best and never stop running'! I've already met three of the old presidents, which was real nice, especially all Dr Peppers.

I've seen that president with the orange face on the television who people don't seem to like too much.

🏊 Hobby

I devote my free time to my family, have fun with DIY projects together with my children.

I build pet projects such as home automation, mobile applications, websites.

I like active sports such as mountain ski, traveling, hiking, river rafting. I have 1st dan in Aikido. If I have free time I read Sci-Fi books, play guitar, learn some fancy foreign or programming language.
